

A man in a dark jacket and trousers stands in front of a large window, looking out. He is holding a black suitcase. The window reflects the outside world, showing a building and some trees. The scene is brightly lit, suggesting daytime.

# **AVIS** REDEFINES PASSENGER COMFORT

**AUDIO VISUAL INFORMATION SYSTEM**

**IN TODAY'S LANDSCAPE,  
THE DEMAND FOR  
REAL-TIME INFORMATION IS CRUCIAL.**

**WHAT CHALLENGES ARISE IN DELIVERING  
ACCURATE INFORMATION IN AIR, RAIL,  
AND ROAD TRANSPORT?**

# REAL-TIME INFORMATION IS ESSENTIAL TO PREVENT UNEXPECTED ISSUES

What is the Key Information for Air, Rail, and Road Passengers that needs to be provided?

Clear text and verbal Communication

Availability and consistency  
of Information

Timeliness of Information

**AVIS TRANSFORMS PASSENGER EXPERIENCE  
WITH REAL-TIME INTELLIGENCE.**

**WANNA KNOW HOW?**

## AVIS SOLUTIONS: EVERYTHING THAT PASSENGERS NEED FOR TRAVEL INFORMATION IN ONE PLACE

What information holds significance for travelers when consolidated in one place?

- Passenger information: Board (arrival and departure info) and audio messages (synthesized voice messages)

- Availability of Information in different parts: platform, track, lobby, gate
- Full compliance of published audio and board messages

- Instant notifications on boards with clear visuals.
- Dynamic real-time generation of audio messages for changes

**AVIS OFFERS TAILORED DESIGN SOLUTION,  
REAL -TIME PRECISION IN PASSENGER  
INFORMATION, MULTILINGUAL TEXT-TO-SPEECH  
OPTIONS, COMPLIANCE MASTERY, AND  
RAILWAY-READY PRECISION,  
PROVIDING UNMATCHED ADVANTAGES.**

## TAILORED EXCELLENCE: AVIS' FLEXIBLE DESIGN SOLUTIONS FOR UNIQUE NEEDS

### Tailored Design Solution

AVIS's system offers real-time updates on schedules, delays, and routes through visual displays and voice notifications

### Text-to-Speech Technology

AVIS uses cutting-edge text-to-speech tech for natural, announcements with user-friendly options

### EU Regulatory Compliance

AVIS's automated messaging system ensures organized communication, and emergency notifications for passenger safety

### Railroad-Specific Compliance

AVIS tailors real-time passenger information for transportation regulations using visual and voice messages, ensuring compliance

**AVIS STANDS AS  
A TRANSFORMATIVE SOLUTION,  
SEAMLESSLY INTEGRATING TAILORED  
DESIGN, REAL-TIME PRECISION, AND  
ADVANCED TECHNOLOGIES TO ELEVATE  
THE PASSENGER EXPERIENCE.**

# AVIS SETS A NEW STANDARD IN PUBLIC TRANSPORT, REDEFINING THE WAY PASSENGERS NAVIGATE THEIR JOURNEYS

What are the Key Advantages of AVIS solution?

- Broadcasting of audio and visual messages in real-time and centralized information for passengers and dispatchers

- Complete system configurability and parametrization

- Openness for integration with external systems

# AVIS SOLUTION CONCEPT

## SCHEDULED ORDER DRIVING

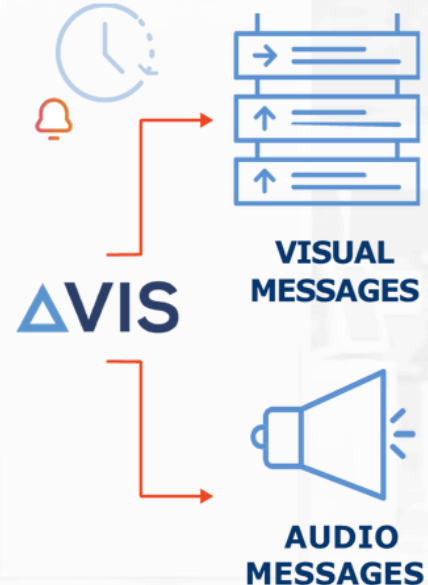

- Arrival time
- Time of departure
- Operator
- Number of tracks/  
platforms/gates
- Category
- Weekly driving schedule

## REALIZED ORDER DRIVING

- Delay in arrival
- Delay in departure
- Shortening the route
- Cancellation of departure
- Change of track/  
platform/gateway

**MESSAGES ARE GENERATED BASED  
ON THE FOLLOWING INFORMATION**

## OVERVIEW OF SOLUTIONS - AUDIO MESSAGES

1

Automatic generation of audio messages based on scheduled and realized timetable; defining content, message priority and frequency

2

TTTS component for text-to-speech synthesis with built-in elements of natural intonation; the possibility of broadcasting on different sound zones

3

Segmentation of messages based on category, event and station types (initial, transitory); support for cases and grammar correctness

4

Generation of audio messages on demand for emergency broadcasting (service information, amber alert...)
